

# SKIN SUMMER SCHOOL

11° edition

19 - 21 JUNE 2023, PAVIA

Conference President: Prof. Paola Perugini , PhD

## THE SUSTAINABLE SUPPLY CHAIN IN COSMETICS

The international school combines the in-presence event with the virtual to discuss about the **sustainable supply chain** of the cosmetic product. The personal care world faces constant challenges to ensure a more sustainable development of their products. Meeting these expectations requires effort and commitment in all the processes. The school represents a unique opportunity to improve knowledge and education regarding the steps of the sustainable supply chain and the **tasks to implement** to achieve the **transparency** and **accountability** the consumer is asking for.
